/ github.com/hebboulchouaib

third-year Computer Science student at USTHB with solid foundations in algorithms, systems programming, and database design. Passionate about building clean, efficient software and eager to apply technical skills to real-world engineering problems through an internship or entry-level position.

EDUCATION

B.Sc. Computer Science (3rd Year)

USTHB – Houari Boumediene University of Science & Technology

2023 – Present · Algiers, Algeria

Relevant Coursework :

- Data Structures & Algorithms
- Operating Systems (Linux)
- Database Systems
- Systems Programming (C/C++)

PROJECTS

2048 Game

C · SDL2

- Fully functional 2048 game with SDL2 graphical rendering.
- Implemented tile movement, merging logic, and score tracking.
- Applied event-driven programming and manual memory management.

Library Management System

Java · Oracle DB

- Designed a relational schema for books, students, and borrowing records.
- Wrote SQL queries for search, reporting, and data integrity.
- Built a Java desktop UI with full JDBC-Oracle Database connectivity.

LANGUAGES

- Arabic – Native
- English – Proficient
- French – Intermediate

TECHNICAL SKILLS

Programming Languages

- C
- Java
- Python
- SQL
- Assembly (x86)
- HTML / CSS / JavaScript

Technologies & Tools

- Oracle Database
- SDL2
- Git & GitHub
- Linux (CLI)
- JDBC (Java data base connector)
